STATEMENT REGARDING DISCHARGE.

In making estimates for appropriations for the Naval Academy for the Fiscal Year 1933-34, the Superintendent of the Naval Academy received word from Congress that inasmuch as the quota of midshipmen for Senators and Representatives has been reduced from 4 to 3, a corresponding reduction should be made in the civil teaching staff. Accordingly the estimates provided for the discharge of 12 instructors. This cut was made in the Naval Appropriation Bill as it passed the House, but the amount was restored by the Senate. Pending action on the Bill, the 12 instructors were officially notified that their services would not be needed after 30 June 1933. This notice became inoperative after the Senate restored the cut made in the appropriation by the House. When orders were recently received to make a reduction in the Budget it became necessary not only to discharge the 12 instructors originally recommended but to also discharge 12 additional, which included 4 instructors in physical training. These 4 instructors in physical training have been carried on under pay from the Navy Athletic Association.
